OREN CHEYETTE, PHD

Oren Cheyette is a quantitative strategist for the disciplined alpha team at Loomis, Sayles & Company. In collaboration with the quantitative research risk analysis group, he is responsible for the development and implementation of attribution, risk management and relative value tools. Oren started his investment industry career in 1988. Prior to joining Loomis Sayles in 2010, he was a consultant to asset managers specializing in fixed income analytics, model and market analysis. Previously, Oren spent 12 years as head of fixed income research at Barra, and several years as head of prime mortgage research at BGI. Oren is a graduate of Princeton University and earned a PhD from the University of California at Berkeley.
